*Paragraphs [003] and [038] are not entered as they add new matter to the instant application. Per paragraph [003], "dissolved nutrients or metals" is broader in scope than "fertilizer" since fertilizer may contain dissolved nutrients or metals but a substance containing dissolved nutrients or metals is not necessarily a fertilizer. Per paragraph [038], the original specification and drawings do not show a weir that is substantially equal in height to the baffle port. The weir disclosed and illustrated clearly exceeds the height of the baffle port.*
